

INTERACTIVE e - CLOSEOUT DOCUMENTS

EFFICIENT ACCESSIBLE SUSTAINABLE

WHAT I CAN ARCHIVE

Archive Construction plans and specifications, O&M manuals, Warranties, As-Built Drawings, Project Contacts—the list goes on—fully customizable to your project record documentation needs.

HOW DOES IT WORK?

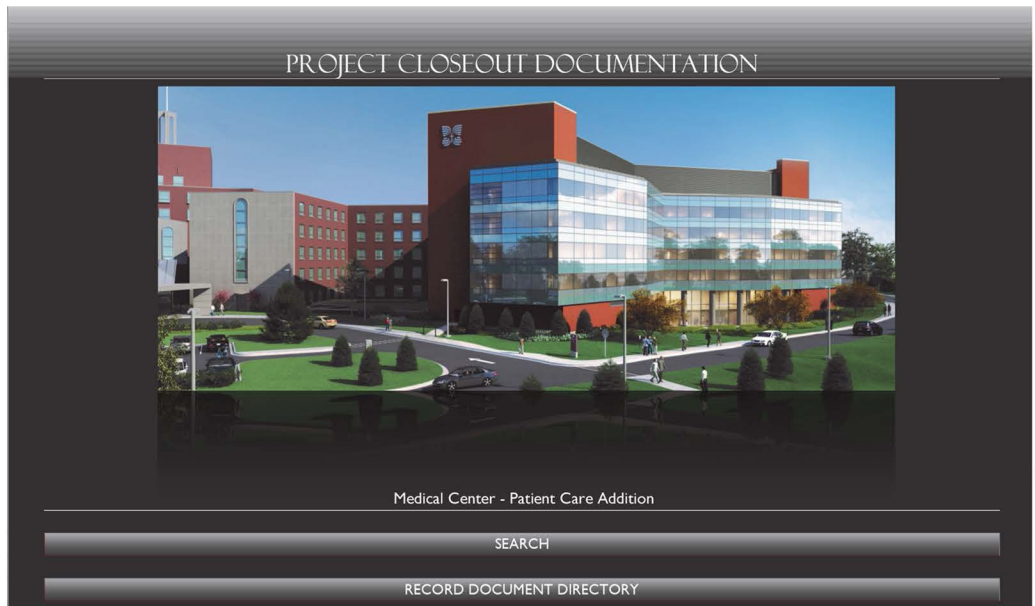

Simply point and click to navigate through your intelligent document package.

THE BENEFITS

Eliminates closeout document reproduction costs. Eliminates the clutter of paper format close-out documentation. Never lose track of as-built drawings or O&M manuals.

WHAT WILL I NEED?

You probably already have it, the FREE Adobe Reader. No software license fees! No new software to learn. Intuitive navigation format allows instant access to your project documentation. Complete with a built-in search engine to assist in document accessibility.

Imagine—every document related to your completed project at your fingertips. Access it all within a couple of clicks— as-built drawings, specifications, O&M manuals, test reports, project photo documentation—it's all there in your permanent archive.

BHFx Digital Imaging is the first to offer this efficient new way to archive your Construction Closeout Documentation. Never before has it been so simple to track all of your related documents in one easy to access location.

You'll be amazed by the elegant simplicity, ease of use, and accessibility of the project documentation. All this, and no software license fees. Our close-out management solutions provide an environmentally conscious approach to your close-out management needs.

We recognize that every project, and every client is unique. Our system is fully customizable to meet your needs—incorporating each and every document you wish to retain.

Join us in bringing your project closeout documentation into the digital age.
